REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Member of Beta Capital Securities, LLC
Miami, Florida

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Beta Capital Securities, LLC (the "Company") as of December 31, 2023, and the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit of the financial statement provides a reasonable basis for our opinion.

Crowe LLP
Crowe LLP

We have served as the Company's auditor since 2021.

The accompanying notes are an integral part of this financial statement.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business and Organization

Beta Capital Securities, LLC (the Company) is registered with the Securities and Exchange Commission (SEC) as a broker-dealer of various types of equity, debt, commodity, and mutual fund securities. The Company acts in an agency and riskless principal capacity, buying and selling these securities for its customers, primarily within Latin America, and charging a commission. The Company is a wholly owned subsidiary of Credit Andorra US GP (USGP) which is a wholly owned subsidiary of Credit Andorra SA (CA SA). The Company is approved by Financial Industry Regulatory Authority (FINRA), the Company's self-regulatory organization, to conduct self-clearing operations. Beta Capital Securities LLC and its affiliate Beta Capital Management LLC, a registered investment advisor, were re-branded as Creand Wealth Management in 2021.

Government and Other Regulation

The Company's business is subject to significant regulation by various governmental agencies and self-regulatory organizations including FINRA, SEC, and the National Futures Association. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

Use of Estimates in the Preparation of Financial Statement

The preparation of the financial statement in conformity with GAAP requires management to make estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statement and the disclosures provided. Accordingly, actual results could differ from those estimates.

Translation of Foreign Currencies

Assets and liabilities denominated in foreign currencies are translated at year-end rates of exchange.

Cash and Cash Equivalents

Cash held at financial institutions, at times, may exceed the amount insured by the Federal Deposit Insurance Corporation. All highly liquid investments with original maturities of three months or less, including money market funds are considered to be cash equivalents.

Cash and Securities Segregated in Accordance with Federal Regulations

The Company is required by Rule 15c3-3 of the Securities and Exchange Commission to maintain a cash reserve with respect to customers' transactions and credit balances, on a settlement date basis. Such a reserve is computed weekly using a formula provided by the Rule and the reserve account must be separate from all other bank accounts of the Company. The Company had \$4,675,525 in cash and securities, net of haircuts on deposit in the reserve bank accounts as of December 31, 2023.

Receivable from and Payables to Customers

Accounts receivable from and payable to customers are recorded on a settlement date basis and include amounts due on cash and margin transactions. Securities owned by clients are held as collateral for receivables.

Fair Value of Financial Instruments

The Company follows Accounting Standards Codification (“ASC”) Topic 820, “Fair Value Measurements and Disclosures” (the “Standard”). ASC Topic 820 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The Standard defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Standard also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are based on market pricing data obtained from sources independent of the Company. Unobservable inputs reflect the Company’s judgement about the assumptions market participants would use in pricing the asset or liability. The Standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date. A quoted price for an identical asset or liability in an active market provides the most reliable fair value measurement because it is directly observable to the market.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs which are measured using the Company’s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Certain financial instruments that are not carried at fair value in the statement of financial condition are carried at amounts that approximate fair value due to their short-term nature and generally negligible risk. These instruments include cash and cash equivalents, receivables from broker-dealers, clearing organizations, and counterparties, payables to broker-dealers, clearing organizations and counterparties, line of credit and other payables (all Level 1).

Commissions Payable

Commissions payable relates to amounts due to the Company’s registered representatives for customer sales of securities and are recorded based on agreed upon commission payout percentages, as commission revenue is accrued.

Furniture, equipment, software, and leasehold improvements

Property and equipment are recorded at cost. Expenditures for major betterments and additions are charged to the asset accounts while replacements, maintenance and repairs which do not improve or extend the lives of the respective assets are charged to expense currently. The Company records depreciation and amortization on the straight-line method based on estimated useful lives of two years for software and the related software licenses, three years for data processing and communications equipment, and five years for furniture and fixtures. Amortization of leasehold improvements is computed using the straight-line method over the shorter of the term of the lease or the estimated useful lives of the assets, which ranges from seven to nine years.

Leases

The Company accounts for its leases in accordance with FASB ASC 842, Leases. The Company is a lessee in noncancellable operating leases, for office space and other office equipment. The Company determines if an arrangement is a lease, or contains a lease, at inception of a contract and when the terms of an existing contract are changed. The Company recognizes a lease liability and a right of use (ROU) asset at the commencement date of the lease.

Lease liabilities: A lease liability is measured based on the present value of its future lease payments. Variable payments are included in the future lease payments when those variable payments depend on an index or a rate and are measured using the index or rate at the commencement date. Lease payments including variable payments based on an index rate, are remeasured when any of the following occur: (1) the lease is modified (and the modification is not accounted for as a separate contract), (2) certain contingencies related to variable lease payments are resolved, or (3) there is a reassessment of any of the following: the lease term, purchase options or amounts that are probable of being owed under a residual value guarantee. The discount rate is the implicit rate if it is readily determinable; otherwise, the Company uses its incremental borrowing rate. The implicit rates of the Company's leases are not readily determinable; accordingly, the Company uses its incremental borrowing rate based on the information available at the commencement date for each lease. The Company's incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms and in a similar economic environment. The Company determines its incremental borrowing rates by starting with the interest rates on its recent borrowings and other observable market rates and adjusting those rates to reflect differences in the amount of collateral and the payment terms of the leases.

ROU assets: A lessee's ROU asset is measured at the commencement date at the amount of the initially measured lease liability plus any lease payments made to the lessor before or at the commencement date, minus any lease incentives received, plus any initial direct costs. Unless impaired, the ROU asset is subsequently measured throughout the lease term at the amount of the lease liability (that is, present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received. Lease cost for lease payments is recognized on a straight-line basis over the lease term.

Accounting policy election for short-term leases. The Company has elected, for all underlying classes of assets, to not recognize ROU assets and lease liabilities for short-term leases that have a lease term of 12 months or less at lease commencement, and do not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. The Company recognizes lease cost associated with its short-term leases on a straight-line basis over the lease term (see Note 7).

Defined Contribution Plan

The Company maintains a 401(k)-plan covering substantially all employees, with the Company matching up to 4% of employee payroll deferrals at the Company's discretion.

Income Taxes

The Company is a Limited Liability Company, which is a disregarded entity for federal income tax purposes. Instead, its taxable income or loss is reflected on Credit Andorra USGP LLC's income tax return. No provision for income taxes is included in the accompanying financial statement, as the Parent does not allocate income taxes to the Company.

The Company assesses its tax positions in accordance with "*Accounting for Uncertainties in Income Taxes*" as prescribed by the Accounting Standards Codification, which provides guidance for financial statement recognition and measurement of uncertain tax positions taken or expected to be taken in a tax return for open tax years. The only periods subject to examination by the Company's major tax jurisdictions for federal and state tax returns are 2020 through 2023.

The Company assesses its tax positions and determines whether it has any material unrecognized liabilities for uncertain tax positions. The Company records these liabilities to the extent it deems them more likely than not to be incurred.

The Company believes that it does not have any significant uncertain tax positions requiring recognition or measurement in the accompanying financial statement.

Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement

In accordance with ASU 2018-15, the costs associated with implementing the Company's self-clearing operation have been capitalized and included in other assets in the statement of financial condition. These costs are being amortized over 6 years, which is the life of the related service contract. On December 31, 2023, capitalized self-clearing implementation costs amounted to \$955,428, with accumulated amortization on those costs being \$621,256 resulting in a net carrying value of \$334,172 and is reported in other assets in the statement of financial condition.

Current Expected Credit Losses

The Company accounts for estimated credit losses on financial assets measured at an amortized cost basis and certain off-balance sheet credit exposures in accordance with FASB ASC 326-20, Financial Instruments – Credit Losses. FASB ASC 326-20 requires the Company to estimate expected credit losses over the life of its financial assets and certain off-balance sheet exposures as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts.

The Company records the estimate of expected credit losses as an allowance for credit losses. For financial assets measured at an amortized cost basis the allowance for credit losses is reported as a valuation account in the statement of financial condition that adjusts the asset's amortized cost basis.

The Company also applies the collateral maintenance provision practical expedient described in FASB ASC 326-20-35-6 for receivables from customers.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Certain off-balance sheet credit exposures. The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty. The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company, through its clearing firm, extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customers' accounts. In connection with these activities, the Company executes customer transactions involving the sale of securities not yet purchased, substantially all of which are transacted on a margin basis subject to individual exchange regulations. Such transactions may expose the Company to significant off-balance sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event a customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, requires the customer to deposit additional collateral or to reduce positions when necessary.

Receivables from Customers. The Company's receivables from its brokerage customers include margin loans and accrued interest on these loans. Margin loans represent credit extended to customers to finance their purchases of securities by borrowing against securities they own and are fully collateralized by these securities in customer accounts. Collateral is maintained at required levels at all times. The borrowers of a margin loan are contractually required to continually adjust the amount of the collateral as its fair value changes. The Company subjects the borrowers to an internal qualification process and an interview to align investing objectives, and monitors customer activity. The Company applies the practical expedient based on collateral maintenance provisions in estimating an allowance for credit losses for margin loans.

Receivables from broker-dealers and Clearing Organizations. The Company's receivables from broker-dealers and clearing organizations include amounts receivable from unsettled trades, including amounts related to futures and options on futures contracts executed on behalf of customers, amounts receivable for securities failed to deliver, accrued interest receivables and cash deposits. A portion of the Company's trades and contracts are cleared through a clearing organization and settled daily between the clearing organization and the Company. Because of this daily settlement, the amount of unsettled credit exposures is limited to the amount owed the Company for a very short period of time. The Company continually reviews the credit quality of its counterparties.

As of December 31, 2023, there was no allowance for credit losses reported.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

CARES Act Employee Retention Credits

The CARES Act provides eligible employers with less than 500 employees, a refundable tax employee retention credit (“ERC”) against the employer’s share of social security taxes equal to 70% of qualified wages paid to employees during a quarter, for a maximum quarterly tax credit per employee of \$10,000. The Company qualified and applied for the tax credit under the CARES Act for the quarters ended June and September 2021.

In 2021, the Company adopted International Accounting Standard (IAS) 20, Accounting for Government Grants and Disclosure of Government Assistance to account for its ERC’s, which requires government assistance to be recognized when there is reasonable assurance that (1) any conditions attached to the assistance will be met and (2) the assistance will be received. As permitted by IAS 20, in 2021 the Company included the ERCs in the amount of \$553,454 as a receivable included in other assets in the statement of financial condition. The Company has no unfulfilled conditions or other contingencies attached to government assistance that has been recognized. In January 2023, the Company received \$269,234 of the \$553,000 receivable, resulting in a remaining receivable of \$283,766 at December 31, 2023, and is included in other assets in the statement of financial condition.

NOTE 2. RECEIVABLES FROM AND PAYABLES TO BROKER-DEALERS, CLEARING ORGANIZATIONS, AND COUNTERPARTIES

Receivables from and payables to brokers-dealers, clearing organizations, and counterparties result from the Company’s processing of customer transactions and consisted of the following as of December 31, 2023:

Receivable:

Receivable from clearing organization	\$ 8,513,664
Receivable from affiliated clearing organization	2,766,552
Securities fail to deliver	893,712
Other receivables	738,701
	<u>\$ 12,912,629</u>

Payables:

Securities fail to receive	\$ 439,395
Payable to clearing organization	99,323
	<u>\$ 538,718</u>

The Company maintains deposits at various financial services companies that the Company utilizes to facilitate its self-trading operations. At December 31, 2023, the Company had receivables from clearing organizations of \$8,513,664 of which \$3,659,287, \$3,519,770, \$1,292,500 was held at three clearing organizations and \$42,107 was held at a broker-dealer, respectively.

The Company clears certain of its customer transactions through another broker-dealer on a fully disclosed basis. The amount payable to the clearing broker relates to the aforementioned transactions and is collateralized by securities owned by the Company.

NOTE 3. NET CAPITAL REQUIREMENTS

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule of the Securities and Exchange Commission, which requires that "Net Capital", as defined, shall be at least the greater of \$250,000 or one-fifteenth of "Aggregate Indebtedness", as defined. At December 31, 2023, the Company's "Net Capital" was \$16,508,938 which exceeded the requirements by \$14,031,143 and the ratio of "Aggregate Indebtedness" to "Net Capital" was 2.25 to 1.

NOTE 4. FAIR VALUE MEASUREMENTS

The following table sets forth by level, within the fair value hierarchy, the Company's net securities owned, other marketable instruments, , and securities segregated under federal regulations, at fair value on a recurring basis as of December 31, 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
U.S. Government Securities:				
Segregated under federal regulations	\$ -	\$ 3,689,633	\$ -	\$ 3,689,633
Non-Segregated	\$ -	2,945,620	\$ -	2,945,620
Total	\$ -	\$ 6,635,253	\$ -	\$ 6,635,253

The financial instruments of the Company are reported in the statement of financial condition at their fair values. Management will categorize as Level 3 of the fair value hierarchy, those securities that are valued based on market transactions and where there is a material price disparity between third-party pricing services and observable and unobservable inputs. At December 31, 2023 there were no securities with such price disparities, and accordingly, no securities were categorized as Level 3 under the fair value hierarchy for the year then ended. During the year ended December 31, 2023, there were no transfers in or out of Levels 1, 2, or 3 of the fair value hierarchy.

NOTE 5. PROPERTY AND EQUIPMENT

Property and equipment at December 31, 2023, consisted of the following:

Furniture and fixtures	\$ 128,365
Leasehold improvements	648,259
Office equipment	364,020
Software	329,078
	<hr/>
	1,469,722
Less: accumulated depreciation and amortization	(1,462,499)
	<hr/>
	\$ 7,223

NOTE 6. RELATED PARTY TRANSACTIONS

Beta Capital Management, LLC

The Company has an expense sharing agreement with Beta Capital Management, LLC (BCM).

At December 31, 2023, \$245,292 is due from BCM, which is included in the statement of financial condition under due from related parties. BCM is related by common ownership.

Credit Andorra, S.A.

In October 2019, the Company entered into a loan agreement with an affiliate, Credit Andorra S.A. (CA SA), whereby CA SA provided the Company with a line of credit in the amount of USD\$35,000,000 and EUR 3,000,000 at a variable interest rate, which at December 31, 2023, was 5.83% on the outstanding balance of USD\$21,003,042, which includes interest payable of \$3,042. Effective January 1, 2024, the outstanding loan rate will be 5.83%. The line of credit maturity date is April 17, 2024, with automatic one-month extensions thereafter until formal notification is given by either the Company or CA SA.

During 2023, the Company entered into a consulting agreement with CA SA to advise on investment matters regarding fixed income and equity markets in the US and Latin America.

At year end, fail-to-receive balances payable to customers in the statement of financial condition included the amount of \$1,167,431 due to CA SA, and fail to deliver balances receivable from customers in the statement of financial condition included the amount of \$629,926 due from CA SA.

Credit Andorra US GP, LLC

During 2023, Credit Andorra US GP, LLC (USGP) rented office furniture to the Company under a month-to-month lease.

Creand Wealth & Securities

During 2023, the Company entered into a consulting agreement with Creand Wealth & Securities (“CWS”) (formally Banque de Patrimoines Privés “BPP”) to provide support in relation to the investment matters in US and Latin American assets on a non-discretionary manner.

Credi-Invest, SA

At year end, fail-to-receive balances payable to customers in the statement of financial condition include \$623,621 payable to Credi Invest S.A.

Securities Transactions

The Company was counterparty to securities transactions with parties related through common ownership. The Company had cash balances held at CWS of \$2,766,552 at December 31, 2023, which is included in receivables from BD, clearing orgs and counterparties in the statement of financial condition. CWS also serves as one of the Company custodians for customer securities.

Alternative Products

The Company’s customers have Alternative Investment Product (AIP) positions, where the Company is a distributor, and Credit Andorra SA, a related party is administrator.

NOTE 7. LEASES

The Company is obligated under non-cancelable operating leases for office space and equipment expiring in 2024 and 2025 respectively. The Company's office space lease requires the Company to make variable payments for common area maintenance and taxes. These variable payments are not included in lease payments used to determine the lease liability and are recognized as variable costs when incurred.

The future minimum annual lease payments under the Company's operating lease liabilities for years subsequent to December 31, 2023, are as follows:

2024	455,471
2025	6,657
<hr/>	
Total payments due under operating lease liabilities	462,128
Less amount representing interest	<hr/> (9,596)
Total present value of net minimum lease payments	<hr/> \$ 452,532 <hr/>

The weighted average remaining lease term for the operating leases is approximately 12 months. The weighted average discount rate is 3.82%.

NOTE 8. COMMITMENTS AND CONTINGENCIES

Service Contracts

The Company is party to certain long-term contracts for systems and services that enable back-office trade processing and clearing for its products and service offerings. No incentive was received from Broadridge Financial Services.

Future minimum payment under service contracts with initial terms greater than one year as of December 31, 2023, were approximately the following:

2024	201,274
------	---------

Legal and Regulatory

In the normal course of business, the Company is subject to regulatory proceedings arising in connection with the conduct of its operations. These matters could result in censures, fines, or other sanctions. The Company is currently subject to regulatory investigations including but not limited to their Anti-Money Laundering Compliance Program, IH SEA 15c3-3(a)(1) Interpretation 032 Foreign Banks, Customer and Non-Customer, SEC Act 1934 240.17a-3 Records to be Made by Certain Exchange Members and Broker & Dealers and Written Supervisory Procedures. The Company, after consultation with legal counsel, will vigorously defend itself in the event of any action stemming from such investigations. Given the inherent difficulty of predicting the outcome of regulatory matters, particularly in cases or proceedings in which substantial or indeterminate damages or fines may be sought, the Company cannot estimate losses or ranges of losses because of the outcome of these matters. These matters could have a material adverse effect on the Company's financial position.
